NOTICE OF CONSIDERATION

GENERAL WASTE DISCHARGE REQUIREMENTS

FOR

**ADDITION OF HYDROGEN PEROXIDE, ACID, AND IRON CATALYST TO
GROUNDWATER**

Price Trust Property
Corner of Ninth and L Streets
Crescent City, California
Del Norte County

The California Regional Water Quality Control Board, North Coast Region is considering the extension of coverage for the addition of hydrogen peroxide and sodium citrate to remediate petroleum hydrocarbons at the above named site under General Waste Discharge Requirements (GWDRs) Order No. R1-2004-0020. This remedial system has been proposed as a corrective action to cleanup groundwater contaminated by releases from underground storage tanks formerly located at the site. The injection of hydrogen peroxide will oxidize residual petroleum hydrocarbons in soil and groundwater and sodium citrate will aid in stabilizing the hydrogen peroxide to increase the effectiveness of the treatment.

Any interested party may contact David W. Parson with the California Regional Water Quality Control Board (CRWQCB), North Coast Region at (707) 576-2556 or submit comments to his attention to the CRWQCB office at 5550 Skylane Boulevard, Suite A, Santa Rosa, CA 95403. General WDRs Order No. R1-2004-0020, related documents, and comments received are on file and may be inspected or copied at the CRWQCB office on Mondays from 1:30 to 4:30 p.m., Tuesday through Thursday from 8:30 to 11:30 a.m. and 1:30 to 4:30 p.m., and Fridays from 8:30 to 11:30 a.m. Appointments are recommended for file review and can be made by calling (707) 576-2220. The public comment period will be completed 30-days from the issuance of this notice.
